

TINY with urine container

Art.no 1270

Size matters.

The latest toilet solution from Separett is the small and flexible, Tiny. A real friend to Tiny Houses and other small places. Choose between two versions and think about what you should do with all the space that you will get.

Two versions

- Tiny with urine tube: internal collection of solid waste. external collection of urine
 - Tiny with urine container: internal collection of urine and solid waste
- This leaflet describes Tiny with urine container*

EASY TO USE

OPTIMIZED FOR TINY SPACES

After several years of development of urine diverting toilets this has led to the simple and flexible design of Separett Tiny that is a perfect fit for small spaces. Especially developed for Tiny Homes and other small spaces such as camper vans, caravans, boats, hunting cottages etc.

CLOSED SYSTEM

This model of Tiny contain both the liquid and solid waste inside of the toilet with two containers.

The urine container has a sensor that gives a signal to the Separett-logotype that lights up in a red color when it is time to empty the container.

VIEW SCREEN

The view screen hides the solid waste in the container and is pushed to the side when you sit down to use the toilet. This results in that you only see the toilet waste when it is time to empty the solid waste.

HYGENIC AND ODORLESS

The operational reliability of Tiny is high and the installation of the toilet is easy. The fan exhales the small odor that is formed, despite urine separation, and contributes to a better indoor climate by constantly keeping the air in the space in motion.

INCLUDED WITH TINY 1270-01

Instructions for use, Installation manual, Universal adapter for 110-240 V use, 1 x latrine container with lid, 1 x urine tank, Ø 50 mm ventilation pipe 40 cm, Adapter Ø 50 mm - 1 1/2", Ventilation grille with insect net, Ventilation cowl, Holder for drain cleaning tablet, Installation sketch, Screws for wall / floor, compostable bag sample, Drain cleaning sample, Absorb pad sample, Filter for ventilation pipes

SUPPLEMENT WITH

Urine-diverting child seat 1101

Enabling even the smallest ones to use the urine diverting toilet.

Bio drain cleaner 1118

Bio drain cleaner keeps the urine drain free from urine salts that can clog the urine hose.

Absorb Tiny 1346

The Absorb pad is placed in the bottom of the waste bag and is used to soak up any moisture coming from the waste

INSTALLATION

All that is needed for installing Tiny with urine container is the electric energy of 12 V or 110-240 V and a 50 mm pipe that is used for ventilating the toilet.

The toilet is designed for 50 mm pipes (outer diameter). For optimal function it is recommended that you use Separett's own installation kit that has pipes and angles in the correct dimensions.

Separett Tiny can be installed with up to 5 meters of ventilation piping and 2 90-degree bends. Ventilated air can go through a wall, floor or roof, for example, up into an attic and out through a suitable side of the house.

Installation example

TECHNICAL DATA

TINY	Material	container	Voltage/Wattage	Power consumption	Electrical connection	Noise level Max weight	Max weight
	Recyclable high-gloss polypropylene	Inner container solid waste: 14,5 L polypropylene Urine container: 7,1 L polypropylene	12 V / 1.6 W	0.04 kWh/day	61" alt. Universal power adapter 110/230V-12V	<30dB(A)	150 kg

Connections:

Ventilation out: Ø 51mm

Warranty 5 year The 5-year warranty does not include the fan. The fan has a 3-year warranty.

All our electrical products are ETL and/or CE marked. Further information about the products can be found on our website, www.separett.com
